Pimples, Rash, Eruptions, Etc., Quickly

radicated by New Skin Remedy.

Evarianted by New Skin Remedy.

Ever since its discovery, posiam, the new skin remedy, has, in its extraordinary accomplishments, exceeded the most sanguine expectations of the eminent specialist who gave it to the world. It has cured thousands of cases of eczema and eradicated facial and other disfigurements of years' standing. The terrible itching attending eczema is stopped with the first application, giving proof of its curative properties at the very outset.

In less serious skin affections, such as pimples, rash, herpes, blackheads, acne, barber's itch, etc., results show after an overnight application, only a small quantity being required to effect a cure. Those who use polsam for these minor skin troubles should immediately secure one of the special 50-cent packages recently adopted to meet such needs. Both the 50-cent package and the regular \$2 jar may be obtained at Lee & Osgood's and Smith's drug store in Norwich, Larue's in Putnam, Woodward's in Danielson and Chesebro's in Willimantic, and other leading drug stores.

Generations Of Almanac Makers

Beginning in 1772 the Dabolls Have Turned Out an Annual Publication of Porecasts.

Connecticut is the only one of the New England states which has the record of five generations in one family who have been aimanac makers, be simming with the year 1712 and being still in that avocation. Nathan Daboli of Groton was the originator of the Daboli almanac and published his work annually until the year of his death, 1818. The copies of this almanac from 1772 until 1824 are not common. In the Watkinson library of reference and the Connecticut Historical society can be found the fullest set in the state. The Historical society has a copy of the almane that was issued in 1773. The first of the series in the Watkinson library was issued in 1773. It has a copy of the issue of 1793, also of the last century. The years 1815, 1821, 1812, 1814 and 1816 are kept in the package which is tied up in red tare of the last century. The years 1815, 1821, 1812, 1814 and 1814 are also preserved. The collection of old Dabolis in the Connecticut Historical society cannot be sumerated at present. Owing to changes naw in progress in the library, connecting it with the Colt and Morgan memorials, the collection has been stored and will not be accessible for months.

The Rhode Island Historical society cannot be sumerated at present. Owing to changes naw in progress in the library, connecting it with the Colt and Morgan memorials, the collection has been stored and will not be accessible for months.

The Rhode Island Historical society cannot be sumerated at present of the Daboli almanac was not a pioneer in the soll almanac was not a pione

Morgan memorials, the collection has been stored and will not be accessible for months.

The Rhode Island Historical society has only two numbers of the ancient Daboils being for the years 1793 and 1801. It has some of subsequent years. The Rhode Island Historical society characterizes the Daboil almanac as meeting the special wants of seafaring men, particularly of the whalemen of New London. The founder of the Daboil almanac was not a pioneer in the art. An almanac was published in Cambridge in 1839. James Taylor's almanac was issued in Philadelphia in 1705. The first almanac maker in Connecticut was Daniel Travis, 1716. He was followed by Joseph Moss, 1720, and Robert Treat, 1723. From 1728 until 1762 there were no almanacs published in Connecticut. Roger Sherman, Nathaniel Aimes, James Davis and Joseph Prindle were the almanac makers from 1752 until 1773. Sherman and Ames held the field chiefly in astronomical diaries. In 1755 Ames, Davis and Sherman had almanacs in circulation. There was a college almanac in 1761 and in 1762 by a student at Yale college. Poor Roger's American Country Almanac was issued in 1763. Samuel Ellsworth of Hartford took to almanac making in 1765. Clark Elliot in 1767 and Nathaniel Low in 1772.

The period of Nathan Daboll's work began in the same year with Low's and lasted until 1818. Freebetter's New England Almanac, which was Daboll's, was first issued in 1763. Samuel Ellsworth of Hartford took to almanac making in 1765. Clark Elliot in 1767 he issued "The Gentleman's and Lady's Diary," and published it annually for years. Daboil's name was dropped for that of Edmund Freebetter's New England Almanac, which was Daboll's was first issued in 1763, Green's had gained a popularity hardly inferior to those published with the name of Ames. In 1793 Daboll's New England Almanac was issue. The Gentleman's and Lady's Diary appeared as late as 1800. For the year 1792, and annually thereafter until 1800, with the exception of 1795, Green's Register for the state of Connecticut contains the Da

There was a general similarity running through the old Daboll almanacs. Besides the weather forecasts there were court terms for Connecticut. Rhode Island and the United States courts, wit and humor, anecdotes and

Dissatisfaction with the weather is one of the features of his line of thought. The almanac for 1775 con-ains an illustration of his treatment. Every month through the year is sig-nalized by a verse relative to the topic in mind. In January he notes:

Refused a pastor to embrace, Unless that he would undertake The weather to their minds would

The forecast for St. Valentine's day, The forecast for St. Valentine's day. Feb. 14, 1775, was "prepare for more snow," "old, shivering weather with those that have no fire nor money to buy fuel." For March 24 he says: 'Improve the good weather while you may, for it of short duration." On account of the uncertainty of the elements in The forecast for St. Valentine's day. Feb. 14, 1775, was "prepare for more snow," "old, shivering weather with those that have no fire nor money to buy fuel." For March 24 he says: "Improve the good weather while you may, for it of short duration." On account of the uncertainty of the elements in of the uncertainty of the elements in May "some accused the pastor that he had grossly them abused." "Forward the vegetable kingdom" was Almanac Maker Daboll's order of the day for

BUSINESS CHANGES.

Merger of Bristol Manufacturers Means Departure of Employes.

It became known yesterday that on account of the merging of the Bristol Engineering corporation, the automobile manufacturers, with the New Departure Manufacturing company, a number of the heads of departments, number of the heads of departments, etc., will leave the employ of the company. It war also announced that F. E. Muscovics, who came here about a year aco and has been practically general manager of the engineering company, will soon leave the company and will probably leave town. Mr. Moscovics was the managing head of the old company, but will not be continued in that capacity, as Elmer S. Neal, who came here a few months ago from Springfield, will have entire charge of the New Departure Manufacturing-company, R. H. Grant will charge of the New Departure Manufacturing company, R. H. Grant will also leave the company on October I, and Raiph Lewis, who came here a year ago from Cleveland and has been an inspector of the engine ring company, has also left their employ. It is understood there are a number of other important changes contemplated. The whole business will now be operated from the office of the New De-

Rev. C. S. Bullock as Fulton. In the Hudson-Fulton naval parade In the Hudson-Fulton naval parade Saturday Rev. C. S. Bullock of Stratford impersonated Robert Fulton, while his daughter. Miss Evelyn, appeared as Miss Harriet Livingston, daughter of Chancellor Livingston, whom Fulton married. Robert R. Livingston impersonated Chancellor Livingston, of whom he is a great-grandson. The others, clad in the dress in vogue a hundred years asso, were many dehundred years ago, were manly de-scendants of Fulion or of those who in his epoch making

Have Reached St. Petersburg.

The Hon. W. Rockhill, the newly appointed American ambassador to Russia, accompanied by his wife, who was Miss Edith Perkins of Litchfield, and his daughter, Miss Rockhill, arrived at St. Petersburg Sept. 14 from Berlin. They were met at the railway station by the members of the embassy and escorted to the Hotel de France, where they will occupy aparts. France, where they will occupy apart-ments until the new embassy building is ready for occupancy.

Home from Wedding Trip.

The Rev. and Mrs. Herbert Gallau det. whose marriage took place late in the summer at the Anchorage in Pine Orcherd, the summer home of Mr. and Mrs. Alden M. Young, have returned from their wedding trip and were the suests over last Sunday of Mrs. Gallaudet's parents at their home at Pine Orchard.

Daboll was a member of the Masonic fraternity.

Nathan Daboll, the originator of the almanac, was a noted educator, particularly in mathematics and navigation. His treatise on arithmetic was published in New London in 1799 under the name of "The Schoolmaster's Assistant." He was also the author of "The Practical Navigator." He was born in 1759 and died in Groton, May 9, 1818, at the age of 68. Nathan Daboll, Pr., was born in Groton in 1782 and died in that town in 1863. He was a member of the Connecticut house of representatives in 1832 and of the sensate in 1835. He was judge of probate in the Groton district from 1843 until as in the Groton district from 1843 until 1845. He was connected with the production of Daboll's New Arithmetic function of Daboll's New Arithmetic func a member of the Connecticut house of representatives in 1832 and of the senate in 1835. He was judge of probate in the Groton district from 1843 until 1845. He was connected with the production of Daboll's New Arithmetic and complied the New England Almanac from the time of his father'h death, in 1818. until his oown death, in 1863 He was a careful laborer in the field in life which he occupied.

David Austin Daboll, son of Nathan Daboll, Jr., was born in Groton in 1813. He was a member of the house of representatives from Groton from 1846 until 1871, a period of twenty-five years and was a member of the

five years and was a member of the senate from the old Seventh district in 1873. His term in the house is unprecedented in length of time in the unprecedented in length of time in the history of the state. He was a surveyor by profession and was 59 years of age when he became a senator. He was a democrat in politics. He assisted his father, Nathan Daboll, Jr., in the preparation of the New Arithmetic and continued the publication of the New England Almanac after his father's death, in 1863. Celadron Leeds Daboil, also grandson of Nathan Daboll. Sr., was born in Groton Center, July 18, 1818, and died in New London, October 13, 1886. He was a merchant in New London, From 1854 until 1861 he was employed in the department, of the interior. He invented the fog signal or the fog horn for mariners. Charles Miner Daboll, grandson of the originator of Daboll's Allmanac was born in Groton October grandson of the originator of Daboli's Almanac, was born in Groton, October 14, 1822. He was a practical mechanic and invented the jackscrew for raising buildings. He was the United States government inspector for Connecticut and Rhode Island of boil-

OF FULTON'S KIN

J. C. Barthe of Bristol is a Grandnephew of Inventor-Won't Visit the Celebration.

Joseph Clement Barthe of Bristol. grandnephew of Robert Fulton, will no: attend the Fulton celebration. He is \$4 years old, but he left Sunday to attend the reunion of his Civil war regi-ment in Springfield. He is afraid of the crowd and the crush and therefore decided not to go to New York for the big celebration. Fulton was an uncle of Mr. Barthe's mother, who died when he was 8 years old.

when he was 8 years old.

Mr. Barthe was born in York, Pa.,
June 15, 1826. His father was Gen.
Peter D. Barthe, one of the military
commanders in that state. His father
was a resident of Pennsylvania and
died in that state in 1870. When the Civil war broke out he was in West Suffield and enlisted in the Thirteenth

Connecticut volunteers.

Mr. Barthe took part in the battles of Kingston, Goldsboro and Whitehall and returned to Massachusetts after the war.

Man Building.

"You are a lucky dog." I said to Bill
whose name is not Bill. "You have
a job for which thousands of fellows
of your age and older would give their
eye-teeth. Of course you intend to
hang onto it and become more and
more intimately connected with the institution as the years slip by."
"That's where you prove yourself.

more intimately connected with the institution as the years slip by."

"That's where you prove yourself an almighty poor guesser." said Bill—whose name is not Bill. "It's just like this, old man. I am a lucky dog in many ways. I have a good job. But I wouldn't have this good job for a minute if I wasn't a pretty fair sort of an employe. I am doing my work and gettling paid for it. I get two salaries. One is paid in mone the other is paid in knowledge. I always insist on gettling both when I work for an institution. So far I have paid most attention to the learning. I don't care for the money. I figure that the world will be compelled to pay dividends on what I know later on. And I am going to get paid for putting over a stunt of my own. My employer has a big thing. He has done much good. But it is his stunt. And he hasn't performed the Ullimate Stunt yet. There are several Big Things to do. I have a hunch that I can do one of those big things. Can't you understand that every man who does big things must express himself in his own way and not according to the dictates of another? Well, thai's why I am planning to play my own game in my own way some day. —Thomas Dreier in October Nantilus.

Teddy Hasn't Heard Yet.

If Mr. Taft keeps on saying these things we look for Mr. Roosevelt to return with snow-white hair and a hagsard mien.—Chicago Inter-Ocean.

Palmist and Clairvoyant. I am now located at 8 Union St. New London one block from post office, where shall be pleased to see my friends an patrons.

NEW GOVERNMENT

Delegates, Met at Providence, Vote to Form Grand Lodge in the United States.

At a meeting of delegates of districts representing New, York, Rhode Island, Massachusetts, California, Gonnecticut and Pennsylvania, of the I. O. O. F. M. U., held in Providence Saturday, it was voted that the Manchester Unity in the United States form a governing body in this country. This body is to be called the Grand lodge of the Manchester Nnity in the United States. Rules have been drawn up to govern said body and in the near future the above grand lodge will be a new feature of Odd Fellowship on this cide of the water. Heretofore the lodges throughout the United States have been ruled from England.

James Moss, provincial deputy grand master of Connecticut, was present from Taftville, accompanied by Robert McNeely, also of Hugh H. Osgord lodge.

Recovering Sight.

The meeting of Independent Norwich lodge, No. 209, 1, O. B. A., at Swatzburg hall Sunday afternoon was made memorable by the attendance of Louis Sacher, a brother of the lodge, who totally lost his sight about fourteen months ago, but has just returned from Europe with his sight nearly restored. He arrived here last Thursday after eight months abroad, where he was under treatment by experts in Vienna. Previous to then he had been six months in a New York hospital, where nothing could be done for him. The order assisted in raising a fund to send him abroad for treatment. He can now see to read and write some and also to get around, but his eyes are still to be taken care of.

The blindness came on him suddenly one night on the way to New York on the boat from New London. He was all right when he went to bed, but when he awoke he was totally blind.

Going to Cuba.

Miss Chrystine E. Abramson, sister of Mrs. George A. Risley of this city, will leave New London in December for Cuba, where in the city of Havana she will assume the management of a jeweiry store, a branch of a New York firm.

The store is operated only through the winter by this firm. Summers Miss Abramson will represent the firm in the White mountains. She has been employed by a New London jeweler for some years and is a capable and popular saleswoman.

Struck Water at Last.

Struck Water at Last.

When almost on the point of giving up the work of drilling through rock at Cornet's corner for water, the Uncasville Manufacturing company got what it wanted Thursday. After drilling through 102 feet of rock a further effort was made, and at a depth of 108 feet the water gushed up. The pipe filled almost instantly and there is a standing depth of 102 feet of the purest water in town in the well.

Postoffice Appointments.

George W. Fairgrieve has been appointed postmaster of the fourth class office at Bantam, Litchfield county, to succeed W. P. Crossman, who was removed. In the same county John L. Davis has been named to succeed R. H. Fitch as postmaster at Wilton. Fitch resigned recently.

Better Go Safely. Peary is not out of danger yet. The name of his ship may explode before he gets back and send the entire bunch to the bottom.—Houston Post.

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription.
